Welcome to the second Global Evidence Summit 2024!

On behalf of our organising partners, we invite you to join us for the eagerly anticipated second Global Evidence Summit. This is a unique opportunity bringing together academics, researchers, and leaders across the globe to get involved in evidence-based practice, with a shared mission to provide a platform to discuss critical issues across different sectors, including health, education, social justice, the environment, and climate change.

The main aim of the Global Evidence Summit is to provide a multi-disciplinary and cross-cultural platform, which provides the opportunity for delegates and speakers to exchange ideas about how best to produce, summarise and disseminate evidence to inform policy and practice, and using that evidence to improve people's lives across the world.

We are delighted to be hosting this event in the historic city of Prague in the O2 universum from 10-13 September 2024

(Satellite Meetings to be held on the 9 September 2024).

It has been six years since the inaugural and highly successful Global Event Summit in Cape Town, and we have been waiting for quite some time to be able to host the second Summit, so we really do hope you will be able to attend and connect with many of our members, partners and colleagues from the global evidence community.

We aim to deliver a bigger and better Global Evidence Summit in 2024 to advance the use of reliable research evidence in addressing some of the world's most serious health and social challenges. We would love to see you there!

The themes for GES 2024 are:

- Sustainable development agenda
- The importance of research integrity making evidence accessible
- Power of synergy in evidence synthesis & synthesis products
- Evidence translation & implementation
- Advocating for greater evidence communication & use of evidence

- From global evidence to local impact

Save the dates!

Abstract & workshop submissions open	10 January 2024
Early Bird registration opens	7 February 2024
Abstract & workshop Submission Closes	21 February 2024
Abstract & workshop notifications	30 April 2024
Early Bird Registration Closes	13 June 2024
Standard registration opens	14 June 2024

Registration Fees
